

BONNEVILLE PRIMARY SCHOOL

Success for today, prepared for tomorrow

Tuesday 4th September 2018

Dear Parents and Carers,

In response to parents' views, we have altered the way in which Maths homework is set in KS2. Each child will be issued with a copy of Target Your Maths, from which the majority of Maths homework will be derived weekly. This represents considerable outlay on the part of the school.

We would like to be able to reuse the books year after year and, while we understand that accidents happen, we expect the children to take responsibility for caring for the text books while they are at home. We have therefore numbered each book and made a record of which copy has been issued to each child. Should your child lose his/ her copy of the book or treat it in such a way that it is unusable, we ask that you pay for a replacement copy so that we can keep the system working seamlessly. Please return the slip below, indicating that you and your child will work together to take care of the new homework book and will contribute towards a replacement, should the need arise.

We hope that this new system is effective in standardising homework across KS2 and look forward to working with you to continue the children's learning at home.

Yours sincerely,

Zenia McIntosh
Senior Teacher for UKS2

Maths Homework Books

My child, _____, in class, _____ will be issued with a Target Your Maths book. Should this copy of the book get lost or become unusable, I agree to contribute towards a replacement copy.
