Monday 11th March 2019

SCIENCE WEEK 2019 11th March – 15th March

Dear Parents and Carers,

For Science Week, we are participating in the nationwide British Science Association's annual poster competition. This year the theme for the week is to think scientifically about **journeys**. The activities over the course of the week will encourage young people to think about everyday discoveries and how they affect their lives by exploring science in the world all around us.

You can make your poster about whatever type of journey you like, which will then be forwarded to the British Science Association with a chance of winning prizes.

You could investigate and imagine all the amazing journeys that take place around the world. Here are some topic ideas to get you started:

- What sort of journeys have you made? E.g. holidays.
- Research famous journeys; e.g. Amy Johnson's flight alone from Britain to Australia or Charles Darwin's journey on the HMS Beagle.
- Think about journeys that might be made in the future or travels through time.
- Other than travel, what other journeys can you think of? E.g. electricity, sound, life cycles of animals or plants, the water cycle, or the life cycles of materials such as plastics.
- Investigate Guinness World Record holders and the journeys they have made.

Once you've done your research, it's time to get creative! Your poster must be:

- 2D (flat) – if you make a model, you could bring in a photo of it on A4 or A3 paper
- You can use pop up pictures, pull out tabs or use materials such as paint, drawing pencils, crayons and paper.

We would like you to bring your posters into school by **Thursday 14th March** to be judged by Miss Cramer and Miss Corbett. The best homework from each class will receive a certificate in Friday's celebration assembly and will be forwarded to the British Science Association.

Get creative and good luck!

Miss Cramer and Miss Corbett
