

# Squiggle

Laugh, draw and play together,  
however far apart you are.

Squiggle lets you draw, play and  
collaborate together while in a  
video call.

Think Zoom for children.

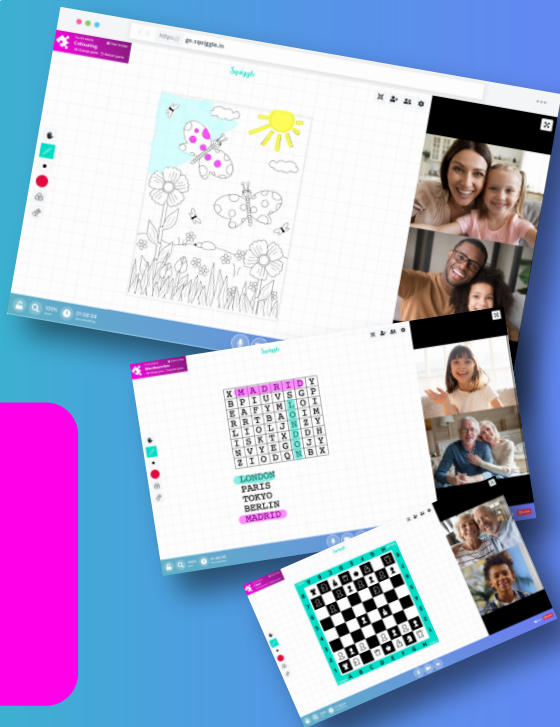

All children at your school have been given  
**100% FREE PREMIUM** access to Squiggle.

Sign up today using this special access code:

**BONNEVILLE**

<https://www.squiggle.io/schools>

No card details required.

Squiggle is brand new, created by me (Dan - a Bonneville dad) in my spare time.

It was initially created for my children, Sam and Rosie, to help them stay in touch with their grandparents and friends during lockdown but has since been used all over the world.

I've given your school free access to Squiggle to keep children connected with their loved ones in a fun interactive way.

I'd love you to try Squiggle and let me know how you get on. Your children may find it more fun than Zoom. Ours do!

Please let me know if you have any ideas, problems or feedback.

Happy squiggling!

Dan
