

# BONNEVILLE PRIMARY SCHOOL

Success for today, prepared for tomorrow

Tuesday 10<sup>th</sup> May 2022

Dear Parents and Carers,

As part of our Science learning this half term, Living Things and Their Habitats, we are taking the children on a local area walk.

We will be walking to **Clapham Common** to explore, research and identify the local area habits. They will also be sketching their choice of habitat, as an observational drawing.

This trip will take place on the morning of **Thursday 19<sup>th</sup> May**. We will be leaving the school at around 9.30am and arriving back by 12pm for lunch as usual.

Although we will be eating lunch at school, we are planning to have a very small picnic at the common during their break. Please send your child to school with a light, healthy snack that day for them to enjoy at the picnic. **Please remember we are a nut free school.**

We would love it if any adults would like to assist us with this trip, to help with the walking to and from the common. Please let your child's class teacher know if any adults are available to join us for the morning.

Many thanks,

Year 4 Class Teachers  
Miss Neate and Miss Walker
