Speech and Language Therapy School Service

At your child's school, Speech and Language Therapy is provided by **Evelina London**.

Our therapists work with schools to support the development of student's **Speech**, **Language** and **Communication** (SLC) skills in areas like attention and listening, understanding, talking, and social interaction.

Speech, language and communication development is important in supporting pupil's **learning** and their ability to **build relationships.** Any difficulties in these areas can have an impact on pupil's **self-esteem**.

We support schools through a range of different activities including therapy, training, advice, classroom observations, setting up groups, creating a communication friendly environment to support language and learning, and much more.

We **welcome the involvement of parents and carers**. Please get in touch if you would like to chat to your Speech and Language Therapist about any concerns you have regarding your child's language skills or find out about strategies to support them at home. Your SENCO can arrange a meeting with us either in school, via video appointment, or by telephone.

Please get in touch if for any reason you do not want your child to have any direct contact with the Speech and language Therapist.
